

THE
MAKEUP
SCHOOL
film tv spfx fashion

OUR PHILOSOPHY

To provide industry led, hands-on training
in order to service the needs
of the NZ Screen and Beauty Industries.

WHY DID WE OPEN THE MAKEUP SCHOOL?

- ▶ There was an **urgent need** for better **industry led training** in NZ.
- ▶ Makeup Artist's skill base fell dramatically **short of** the **industry needs**.
- ▶ The various courses available to students were barely **relevant to industry requirements**.
- ▶ A desire to **pass on experience** and to give something back to the industry.
- ▶ To avoid crew being imported to NZ from off-shore by **training locally**.

WHAT IS OUR POINT OF DIFFERENCE?

- ▶ We only **employ experienced** and currently **working** industry **professionals**.
- ▶ **Our Directors** are experienced Makeup Artists who **regularly employ graduates** on film jobs they are working on.
- ▶ We regularly bring in **specialised technicians** in their **area of expertise**.
- ▶ We respond to **industry needs** by moulding our curriculum regularly to suit the ever **changing needs** of the industry.

- ▶ We offer **up-skilling** in the way of **micro credentials** in specific areas you may choose to study
- ▶ We teach **skills that are unique** to our school and imperative to the industry.
- ▶ We run **small classes** with a **hands-on** approach to learning.
- ▶ We use the latest **professional materials** in our studio giving students the edge

- ▶ We place emphasis on **connecting students** and **graduates** directly with **current productions** and established makeup artists in the industry.
- ▶ We spend the time with every potential student to **understand their goals** and ensure they are enrolling in the **best course** suited for them.
- ▶ We pride ourselves on developing a **professional relationship** with all students **supporting** and **guiding** them throughout their studies which continues after they leave.

Over the past 13 years **The Makeup School** have trained makeup and hair artists who are now fully ensconced working on **films** and **television productions** in the New Zealand and International Screen industries ...below are some of them
